This policy and all policies referenced in this policy are available for review by the public.

Definitions:

1. Average Charge – the mathematical average charge for services.
2. Billed Charge – the amount the specific services cost.
3. Pricing Transparency - is the term used to describe initiatives in the healthcare industry to provide meaningful pricing information to consumers. The healthcare industry is often complex and difficult for consumers to navigate. Price transparency is a means of providing consumers price information on common services. Our hospital is committed to presenting pricing information in a way that will be easy for the consumer to access and understand, as well as providing other useful information about financial assistance available, definitions of key terminology, and key financial policies.
4. Payment – Similar to your visit to your physician office, we expect payment at the time of services. If you are ineligible for Medicaid or Patient Financial Assistance and can not pay your entire estimated bill, we will work with you to set up monthly payment arrangements. If, after your services are received, any additional payment is due we will send you information about any amount you may still owe. We accept major credit cards, checks, money orders and cash.
5. Uninsured – means that you do not have coverage for hospital services by a third party like Medicare, Medicaid, Workers Compensation or an insurance company. Other common terms used when referring to uninsured patients are Self Pay and Private Pay.

6. Out of Network – means Gonzales Healthcare Systems does not have a contract with that particular Insurance carrier.

Policy: Gonzales Healthcare Systems will maintain a sound financial position.

Facility Financial Practices

The estimate will be provided no later than the 10th business day after the date on which the estimate is requested.

In order to request a pricing estimate, we ask that you contact us directly by calling 830-672-7581 or visit our website for pricing information.

To comply with The Affordable Care Act, Section 2718 (e) of the Public Service Act; the hospital will have available a list of their current standard charges via the internet in a machine readable format and must update this information at least annually, or more often as appropriate.

Gonzales Healthcare Systems will provide an itemized statement no later than the 10th business day after the date on which the statement is requested. Patients can request this information no later than the first anniversary date of the date of discharge from the facility.

Gonzales Healthcare Systems gives notice that the average charge for a particular inpatient admission, outpatient surgical procedure, outpatient service/procedure or visit to the Rural Health Clinic will vary from the actual billed charged for the admission, procedure or visit based on:

- The persons medical condition
- Any unknown medical conditions of the person
- The person's diagnosis and recommended treatment protocols order by the physician providing the care, and
- Other factors associated with the inpatient admission, outpatient surgical procedure or Rural Health Care visit.

The average charge by the facility for an inpatient admission, outpatient surgical procedure, outpatient service/procedure and/or Rural Health Clinic visit will vary from the facilities cost or the amount that facility may be reimbursed by a health benefit plan for the admission, procedure and/or visit. Unfortunately we can not provide an exact

quote. Our estimates are based on historical pricing for comparable services in the previous year. Price quotes are not guaranteed since the services used to compute the quote can vary from services you received based on the individual's need and health conditions

The patient will be personally liable for payment for any amount that exceeds the estimated cost.

The patient will be personally liable for payment for any amount that is not covered by their healthcare plan.

The patient should contact their health benefit plan for accurate information regarding the plan structure benefit coverage, deductibles, co-payments, coinsurance and other plan provisions that may impact the patient's liability for payment for services and/or supplies.

If the patient is uninsured, Gonzales Healthcare Systems has provisions for discounts (GHS-045) for payments of cash for some services. Gonzales Healthcare Systems does have a Patient Financial Assistance Policy (GHS-035) for those that qualify.
