

Licensed Vocational Nurse (LVN)

As an associate of Gonzales Healthcare Systems, you will have the opportunity to provide care to patients under the direction of a registered nurse and/or physician, functioning within your scope of license. The LVN will:

- **contribute to the assessment of patients and assure their well-being**
- **administer medications and observe patients for adverse reactions to medications and/or treatments**
- **perform laboratory tests and therapeutic services**
- **educate patients/families about disease treatment plan including self-care post-discharge, holistic health needs, available resources, and follow up care**

BLS, ACLS, and PALS credentialed from the American Heart Association; ACLS and PALS to be obtained within 6 months of date of hire or transfer

Licensed Vocational Nurse credentialed from the Texas Board of Nursing
